

**Celebrate Earth Day on a bike tour visiting:**

- **WSU Green Roof** – view a living roof
- **Michigan Science Center** – see a Bio-Swale that slows down stormwater
- **71 E. Garfield** – learn about Porous pavers, native plantings, and a water cistern
- **El Moore Apartments** – See repurposed materials, an urban garden, and learn of its social responsibility focus
- **Green Garage** – Use of a solar thermal array, green alley, and implements a green business incubator
- **Engineering Technology Building** – Get up close to learn more about a solar array and wind turbine

The Sustainability Office and Green Beans Student Collaborative has partnered with the Sierra Club Great Lakes Program to offer The Green Ride, a bicycle tour of local green infrastructure, urban farms, and sites developed with a focus on environmental sustainability.
